

**Real people. Real stories. The Memorial Experience.**

# PHILLIP

**“Memorial saved my life.”**

*It was a fun day at the beach for a group of high school buddies – until a miscalculated dive left Phillip helplessly bobbing in the water. He arrived at Memorial Regional Hospital in Hollywood paralyzed from the neck down.*

Memorial Neuroscience Center’s highly skilled neurosurgery team, led by Dr. Greg Zorman, Chief of Neurosurgery, successfully replaced Phillip’s shattered vertebra. Then Phillip pushed himself unrelentingly as Dr. Alan Novick, Medical Director of Rehabilitative Services, and the dedicated physical therapists guided his rehabilitation.

Just seven weeks later, Phillip walked out of Memorial Regional Hospital filled with gratitude for the extraordinary patient- and family-centered care he received.

And just a few months later, Phillip went off to college – right on schedule.

“The care was above and beyond anything I could have asked for,” Phillip says. “Memorial saved my life.”
