

2026 Core Elite Formulary Effective 01/01/2026

The Core Elite Formulary includes common FDA-approved **generic (Tier 1), brand preferred (Tier 2), brand non-preferred (Tier 3) and Non-Covered/Excluded (Tier 4)** drugs within select therapeutic categories. This document is not a complete list of medications, nor may be covered by your plan. Please refer to your benefit plan documents provided by your employer or plan sponsors for benefit coverage and restrictions. Prior authorization, step therapy or quantity limit on covered medications may apply.

Non-Covered/Excluded (Tier 4) Drugs: Talk with your healthcare provider and consider filling one of the covered (generic, brand preferred or brand non-preferred) alternatives. If the non-covered drug is deemed medically necessary and you or the healthcare provider would like to request an exception, a prior authorization is required. If approved, the drug will be covered at a pre-determined cost-sharing level.

The Core Elite Formulary list is revised periodically as new drugs and new prescribing information becomes available and may change at any time during the year. You may receive notice when necessary. To get updated formulary information covered by your plan, please contact us at 1-800-710-9341.

RESTRICTIONS/LIMITATIONS

Liviniti incorporates drug utilization management programs such as prior authorization, step therapy and quantity limits. Some covered generics and brand medications may enforce these coverage restrictions or limitations.

Prior Authorization (PA): it is a program that promotes the use of safe, effective and reasonably-priced drug therapy. This ensures the member has met specific criteria based on the most current evidence-based medical literature and prescription drugs are prescribed appropriately and are medically necessary. Your healthcare provider is required to provide additional medical information to determine coverage. If your prior authorization is denied, please consult with your healthcare provider if the alternative, preferred drug therapy is appropriate for you.

Step Therapy (ST): it is a program that requires members to initially try preferred, medically proven and less expensive prescription drugs before “stepping up” to more expensive drugs. The goal of step therapy is to control costs and to save dollars for both member and plan. Step Therapy is an automatic process in our system, however, some costly, step therapy drugs will require a prior authorization.

Quantity Limit (QL): it is a program that ensures the drug is prescribed correctly and safely. Generics and Brands may be limited to a certain quantity per month or over a specific amount of time. We use FDA-approved recommendations and clinical guidelines to set our quantity limits. A prior authorization will be required if the drug is beyond our quantity limit and will require documentation as to why you need to exceed the quantity limit.

HOW TO USE THIS FORMULARY

Core Elite Formulary is organized by:

DRUG GROUP
DRUG CLASS
DRUG NAME, FORM AND STRENGTH

Note: Some benefits may require a deductible be met before copays apply. Please refer to your benefit plan documents for additional information.

Legend:

p = GENERICS

np = GENERICS

P = PREFERRED BRANDS

NP = NON-PREFERRED BRANDS

NC = NOT COVERED

Generics (Tier 1) - \$

Generics are shown in lower-case and **boldface** type. They are as safe and effective as brands at a reduced cost. Not all generics may be included in the Core Elite Formulary. Some generics are followed by a reference brand drug in (parentheses). The reference brand drug is not classified as a generic, rather the intent is for completion purposes. Specialty Generics are listed as generics and are subject to a specialty generic copay. Restrictions/Limitations (PA, ST, QL) may apply.

Brands (Tier 2, 3) - \$\$ - \$\$\$

Brand drugs are shown in UPPERCASE type. They are a higher cost than generics. Not all brands are included in the Core Elite Formulary. Specialty brand drugs are listed as brand preferred and brand non-preferred and are subject to a specialty copay. Restrictions/Limitations (PA, ST, QL) may apply.

Not Covered (Tier 4) - \$\$\$\$

Not Covered drugs are shown in UPPERCASE type. Talk with your healthcare provider and consider filling one of the covered (generic, brand preferred or brand non-preferred) alternatives. If the non-covered drug is deemed medically necessary and you or the healthcare provider would like to request an exception, a prior authorization is required. If approved, the drug will be covered at a pre-determined cost-sharing level.
